THE ADVANCEMENTS OF MODERN SCIENCE

Medical Science Is Now Bidding Fair
to Outstep Medical Science, Al-
though for Some Years It
Seemed to Make Very
Little Headway.

A few years ago "bleeding" was the recognized cure for most ills, then came our later system of operations and drugging, but within the last twenty years, and particularly within the last five, medical science has made vast strides towards making it possible to cure the large list of "chronics" which have developed under the old systems and to perfect that cure without the use of drugs or the knife.

This new system, which has now been under the test for fifteen years, is known as Ophthalmology and Neurology. So absolute has it met every demand placed upon it that it has attracted world wide attention, and the leading men of the medical profession, those who are seeking for that whereby they can perfect cures for their patients instead of, as formerly, offering relief only, are adopting it.

A case from our section which was recently restored to health by this treatment after having undergone treatment by eight different physicians, and having been under operation at New Orleans and pronounced incurable, is the well known lecturer and evangelist, Rev. L. S. Hutchens, of Ashmore, Fla.

Dr. E. H. Armstrong, the well known specialist of Jacksonville, who practices this system of treatment for all Eye and Chronic disorders, undertook Mr. Hutchens' case after it had been pronounced hopeless, and in less than three months had his patient back in the pulpit a well man.

Having some personal knowledge of this system of treatment and its results we cannot speak too highly of it. And such chronic disorders as headaches, nervousness, stomach troubles, constipation, neurasthenia, insomnia, etc., are permanently cured within one to three months without drugs. There is no question but that this system of treating disease is what the doctor and the patient have long been looking for.

Panacea Springs Items.

Panacea Springs, Dec. 4.—Mr. W. N. Westbrooks, Chief of Police of Albany, Ga., who spent the past week here fishing, caught the largest red fish (known also as Red Horse or Sea Bass) that has been taken from these waters for several weeks. He landed one that weighed 34 pounds and another that weighed 23 pounds. They were both something over five feet long. They had been out of the water nearly twelve hours when weighed, which in all probability made them weigh four or five pounds less than when first landed. They were game fish, and gave the chief all he wanted to do for 40 minutes or more, although he himself weighs in the neighborhood of 300. One of these monster fish was shipped to Mr. B. M. Wilson's hotel at Albany, where it is expected that something like a hundred guests feasted from it. Mr. Wilson was with "the big chief" when he caught the fish.

Mr. Wilson had never been here before, but is a thorough convert now to Panacea water, and says he expects to come oftener than "the big chief," though the latter has been here three times this year, and is billed for another visit in January next.

Colonel Raymond Cay and Mr. Walter F. Coachman and a party of five or six friends from Jacksonville are due here today. They come both for Panacea water and duck and goose shooting.

Patrons of Panacea will no doubt be glad to learn that Mrs. J. L. Morgan will return here in January to again direct affairs at the hotel.

Mr. Emmett Mitchell and wife, of Thomasville, Ga., and Mr. T. D. Winn and wife, of Iamonia, Fla., are here for ten days or more. Mr. and Mrs. Mitchell have been coming once or twice each winter for the past three years, for the water and the shooting, and always bring a genial party with them.

Two gentlemen who came down last week "to kill a goose and drink Panacea water" were trying the last we saw of them to employ a kicking machine. They went down below Rock Landing late in the afternoon and lay for the geese. They had not waited long before two left the flock across the bay and flew centerly over the two gentlemen, as the guide expressed it, "right in their faces." Each one shot twice and stood staring at the other, wondering why the birds did not fall. The only excuse they could give was that the geese "were too low down." The geese have been shot very little this season, and are not very wild.

Miss Sara Spiller's Party.

Mr. and Mrs. R. F. Spiller entertained a large party of children at their attractive home on West Ashley street last Saturday afternoon, in honor of the fourth birthday of their little daughter, Sara. The house had been prettily decorated with ferns and palms, pink roses and chrysanthemums, the dining room table being very unique in arrangement. A bowl of pink chrysanthemums was the centerpiece, surrounded with plumosa, from which peeped tiny turkeys filled with candy, one for each little guest. The pink iced birthday cake was the piece de resistance, and excited much interest when it was cut, as it contained a dime and a ring; the latter, however, was not found, and the dime fell to Francis Burdine. Many pretty presents were brought to little Miss Sara by her friends, and the occasion will be happily remembered by them all.

I. O. O. F. Lodge Meeting.

The meeting of Leon Lodge No. 5, I. O. O. F., at the Lodge room Tuesday evening was very interesting. While there was not as large an attendance as was expected, those members who gathered there enjoyed the evening very much, and the refreshments, prepared for a much larger attendance by Committee Wahnish, were fine. There was no speaking on the occasion, the brethren present turning it into an old-fashioned Methodist experience meeting, and several talked on the good of the order. This Lodge has a membership of more than seventy, and it is the desire of those few who attend regularly to have a larger attendance, and have the membership become interested and help make the lodge meetings in Tallahassee what they used to be in old times. At one time Leon Lodge was one of the very best and most popular in the jurisdiction of Florida. Let us make it so again.

Resolutions.

At a called meeting of Confederate Veterans, Lamar Camp No. 161, the object of which was to draft resolutions upon the death of the Honorable Richard Allen Whitfield, Camp Commander, the following was submitted and unanimously adopted:

Whereas, Our worthy and beloved Commander, Honorable Richard Allen Whitfield, has been called from his earthly labors; and

Whereas, We desire to express our high appreciation of him as a citizen and soldier; Therefore, be it

Resolved, That in the death of Judge Whitfield our community and this Camp have sustained the loss of a splendid type of Southern manhood, of one whose life was pure and blameless, and whose nobility of character and good works will always remain a worthy heritage to those among whom he lived and worked.

Hon. Leroy F. Youmans Dead.

A Columbia dispatch of the 3d conveys the sad intelligence to Mrs. C. A. Bryan, Mrs. B. A. Meginniss and Miss Sue Archer, of this city, of the death of an honored and loved cousin:

Attorney General Leroy F. Youmans died today at his home in this city, after a long illness with liver troubles. He was over 70 years of age and spent an eventful life. He was celebrated as South Carolina's most eloquent orator of this generation.

He was admitted to the bar before the war. He was elected to the South Carolina Legislature and later solicitor. When the war began he enlisted in a company of the Third South Carolina and served with distinction. Resuming law practice after the war he became attorney general of the State in 1877, when General James Connor retired, and was subsequently elected for two terms on the ticket with Wade Hampton in 1878.

In 1885 he was appointed by President Cleveland district attorney for South Carolina and served for two years, having a remarkably successful record as a prosecuting official. He was appointed assistant attorney general. When Mr. Gunter died in March, 1906, the Governor made Mr. Youmans attorney general, he holding that position at the time of his death.

Dr. Gunn Hurt.

Through the carelessness of a hack driver, Dr. W. J. Gunn last Friday received a very painful injury in his knee, which put him on crutches. Dr. Gunn had warned him about fast driving, and on the streets, near Mr. Julius Diamond's, something came loose about the harness, when a horse pulled off. Dr. Gunn got out and caught the horse, but seeing a small boy who was in the carriage in danger, he jumped to save him, when the horse again jumped, and a wheel striking him and throwing both him and boy severely some distance from the hack. There is too much of this racing business with teams on our streets, and some of the offenders should be pulled and fined heavily for it.

Resolved that during the year of 1907 you will deposit your income in the CAPITAL CITY BANK and pay all bills by check.

Interesting Chaires Items.

Chaires, Dec. 4, 1906.—As was our usual custom we had no Thanksgiving religious services last Thursday, as the resident pastor, Rev. A. M.
